MICHIGAN ASSOCIATION OF  
COUNTIES  
SERVICE CORPORATION'S  
GRANT SERVICES PROGRAM

*The technical and informational resource on grants for Michigan counties, providing quality services and alternative avenues for generating funds.*

In response to the need for additional resources to meet the challenges facing counties, the Michigan Association of Counties Service Corporation (MACSC) has created a Grant Services Program to assist in capturing more funds for Michigan's 83 counties.

The program enlists the assistance of experts willing to provide **free** services and assist counties in:

- Defining issues,
- Developing funding strategies,
- Identifying sources of grants or loan funding, and
- Completing grant applications.

**Why should my county take advantage of the MACSC Grant Services Program?**

All of the services of this program, up to and including the development of a grant application are provided to your county at NO COST.

**Added Benefits**

This program offers many benefits to your county beyond the cost savings associated with the development of a grant application. By using the resources provided by the MACSC Grant Services Program, counties can:

- Select consultants from a pre-qualified pool of experts who will write the grant,
- Enlist the services of these experts in the selection of the appropriate funding source,
- Benefit from close working relationships with funding agencies,
- Receive timely notice of funding opportunities and pertinent training programs,
- Obtain assistance with strategic staging of project elements to maximize qualifications for funding programs,
- Receive assistance with grant implementation and administrative obligations.
